

Færgegårdens Camping/Spodsbjerg Camping

Diving and Nature

How about a lovely extended weekend with the family right next to amazing diving opportunities and lots of activities for everyone? Færgegårdens Camping is located near some of the most fascinating diving spots in the Great Belt Strait, and provides a boat ramp, an air compressor and a berth. For non-scuba divers, the site offers a multitude of exciting activities. The diving spot "Spodsbjerg Nordstrand" is located right by the site. With a water depth of a mere 5 metres near the coastline, snorkelers will have plenty of opportunities for great underwater experiences as well. Kayak rental is also available, and there are excellent fishing spots in the vicinity. How about a trip to see the wild horses of Sydlangeland by Gulstav Mose and Klise Nor near the city of Bagenkop? Langeland is an island of interesting sights and breathtaking nature.
